

# Antivandalism

Solutions / Safety / Antivandalism

Protect windows, doors and partition walls against vandal acts with our Antivandalism film.

- ✔ Vandalism protection film
- ✔ Transparent: optically clear
- ✔ Perfect adhesion

## Specific Markets

## Antivandalism in details

Antivandalism is a major concern of the public transport industry. Operators are always looking forward to provide high-quality services. However, vandalized glazing, graffiti and scratches influence negatively the perception of passengers. These crimes also cause elevated costs of repair.

That's why Solar Gard® a Saint-Gobain company has developed an Antivandalism solution which consists on a transparent film that protects windows, doors and partition walls from all kind of vandal acts: graffiti, scratches, deep engraving and even acid-etching.

**The Graffitigard® film is adhered on the interior side of the vehicle, protecting your glass from any threat. Or, on the outside, protecting your glass from an external vandalism.**

Saint-Gobain Sekurit Transport offers to OEM to deliver glass already filmed at your assembly line to avoid other manipulation.

- ✔ All glass type
- ✔ Invisible film
- ✔ Ready to use
- ✔ Easy to replace
